

Oh, hello there.

— Education

The University of York, UK

Sept 2018 - Sept 2019

Masters in Human-centred Interactive Technologies

National Institute of Technology
Durgapur, India

Aug 2014 - May 2018

BTech in Electronics and Communication Engineering

— Experience

UX Researcher Internship - Department of Information Services, University of York

June 2019 - Aug 2019

Extensive 10 week project on developing a training framework for the customer service team using UX methodologies to understand the current gaps in training offered to the staff, preferences of format and environment. The framework generation was driven by a design sprint.

UX Intern - Kloh Pvt. Ltd

June 2018 - Aug 2018

The project constituted the redesign of Kloh android app with the incorporation of five new functionalities using user-centred design process involving user research, generation of wireframes, rendering visual interfaces, rapid prototyping, usability testing using concurrent verbal protocol, micro-interactions and design evaluation.

UI Designer Intern - Algebra Analytics

Sept 2017 - Nov 2017

The main project I worked on involved the interface design of a digital learning application for android platform named as Knowdata. Tools used : User research using surveys, Sketch and Invision.

UI Designer Intern - Pregbuddy

May 2017 - June 2017

The project comprised of redesign of some of the screens of their existing android application, and the development of low-fidelity prototype for a weight-tracker project.

— Projects

Research Project - University of York

Mar 2019 - Sept 2019

The research project was conducted as a part of MSc dissertation which looked into trust, satisfaction and m-loyalty of m-commerce apps across cultures.

Ecogrocer App Design - UCDE, University of York

Oct 2018 - Dec 2018

This project involved the design of a mobile application to raise awareness among the people of the UK about the harmful effects of consuming food products having dangerous environmental impact using user centred design process.

Visual Designer - CCA, NIT Durgapur

June 2015 - April 2017

Worked as a visual designer for Centre for Cognitive Activities, the techno-management club of NIT Durgapur. The range of design work included design of posters, banners, branding, t-shirt design, motion graphics and web design. A large part revolved around the graphics design works for the annual techno-management fest of NIT Durgapur entitled Aarohan.

— Position of Responsibilities

Faculty Representative, Sciences

Sept 2018 - Sept 2019

University of York

Head, Web Design and Creative Team

June 2017 - May 2018

CCA, NIT Durgapur

Contact me, Perhaps?

I recently completed my master's degree on Human-computer Interaction from the University of York, UK. As I can't operate in a vacuum, so I want to step into the shoes of a professional UX designer/researcher. I wish to meet interesting people like yourself, build something meaningful together, and become more than an ordinary HCI student with aspirations.

Currently am looking for full-time roles, and you're the organisation I'd jump to grab the chance to work with.
